

## Canadian spotlight 20.2: Key additions from the second half of August 2022

In the second half of August, contributing Canadian evidence-synthesis teams have shared with us five newly completed evidence syntheses which are listed in the table below. From the COVID-END inventory, all the syntheses provided insight focused on public-health measures (n=5).

Taxonomy section	Title	Type of product	Date of last search (and publication)	Evidence synthesis team
<ul style="list-style-type: none"> <li>Public-health measures</li> </ul>	<a href="#">What is the effectiveness of available COVID-19 vaccines for adults, including for variants of concern and over time frames up to 120 days?</a>	Update to a living evidence synthesis	2022-08-17 (published 2022-08-23)	Health Information Research Unit, McMaster University
<ul style="list-style-type: none"> <li>Public-health measures</li> </ul>	<a href="#">What is the long-term effectiveness of available COVID-19 vaccines for adults, including for variants of concern and over time frames beyond 112 days in those with a primary series and beyond 84 days in those with a primary series and an additional dose?</a>	Update to a living evidence synthesis	2022-08-17 (published 2022-08-18)	Montreal Behavioural Medicine Centre, Concordia University
<ul style="list-style-type: none"> <li>Public-health measures</li> </ul>	<a href="#">What is the effectiveness of available COVID-19 vaccines for children and adolescents, including variants of concern?</a>	Update to a living evidence synthesis	2022-08-16 (published 2022-08-17)	Faculty of Medicine, University of Antioquia & Health Information Research Unit, McMaster University
<ul style="list-style-type: none"> <li>Public-health measures</li> </ul>	<a href="#">Mask-wearing in children and COVID-19 – What we know so far</a>	Update to a living evidence synthesis	2022-07-25 (published 2022-08-24)	Public Health Ontario
<ul style="list-style-type: none"> <li>Public-health measures</li> </ul>	Evidence brief on the associations and safety of COVID-19 vaccination and post COVID-19 condition: Update 2	Update to an evidence brief	2022-07-07 (published 2022-07-07)	Emerging Science Group, Public Health
