

**COVID-END**

COVID-19 Evidence Network  
to support Decision-making

# MAPPING OF REPRESENTATION OF COVID-END COMMUNITY MEMBERS

**15 December 2020**

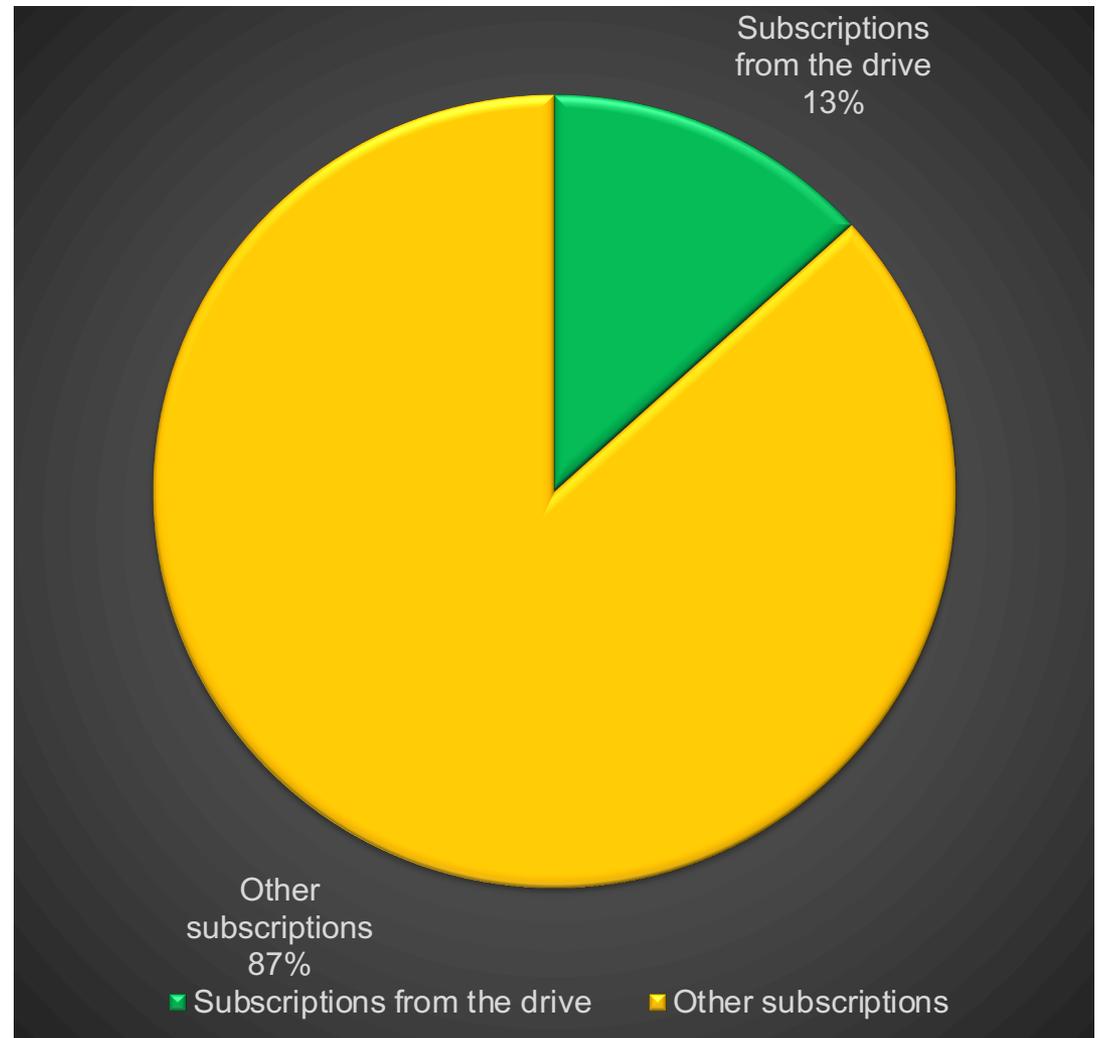

**Newman Dieyi**  
**MPH Student, Memorial University,**  
**Newfoundland and Labrador.**

## At a Glance

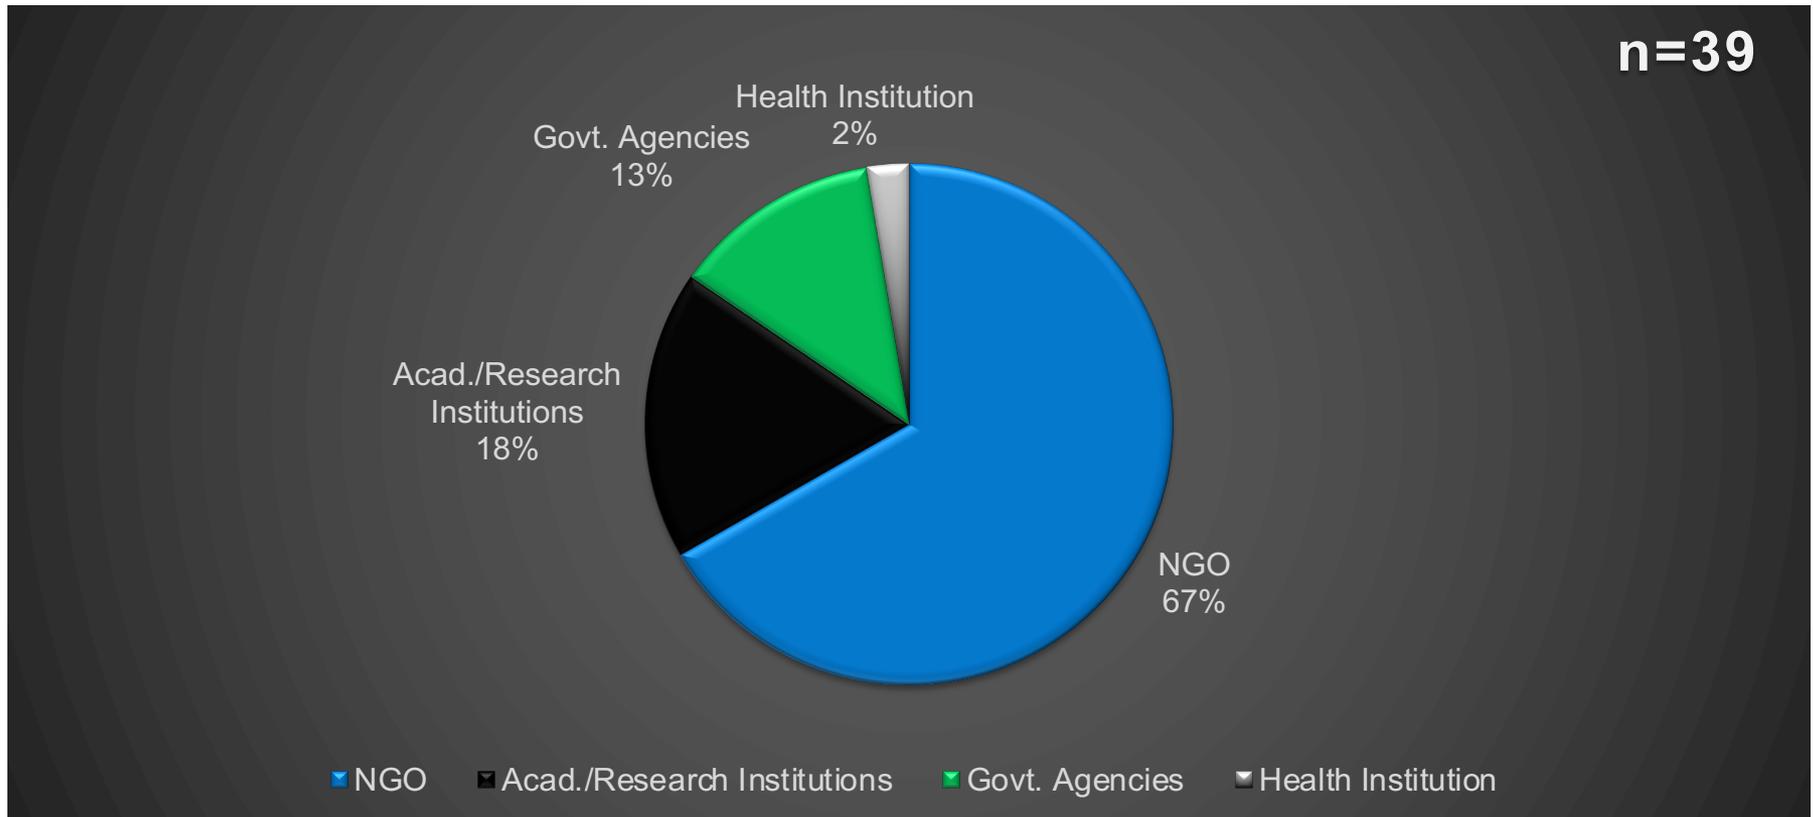

Variable	Frequency
1. Organizations contacted	23
2. Response (direct organizational affiliation)	17
3. No response (direct organizational affiliation)	6
4. Subscriptions to the listserv with direct affiliations to the 17 organizations	39
5. Total number of listserv subscriptions	294

## Comparing subscription activities

- 13% of subscriptions to the COVID-END listserv is directly linked to the organizational outreach carried out around June 2020
- Other subscriptions to the COVID-END listserv account for 87%

# Representation from initial listserv promotion

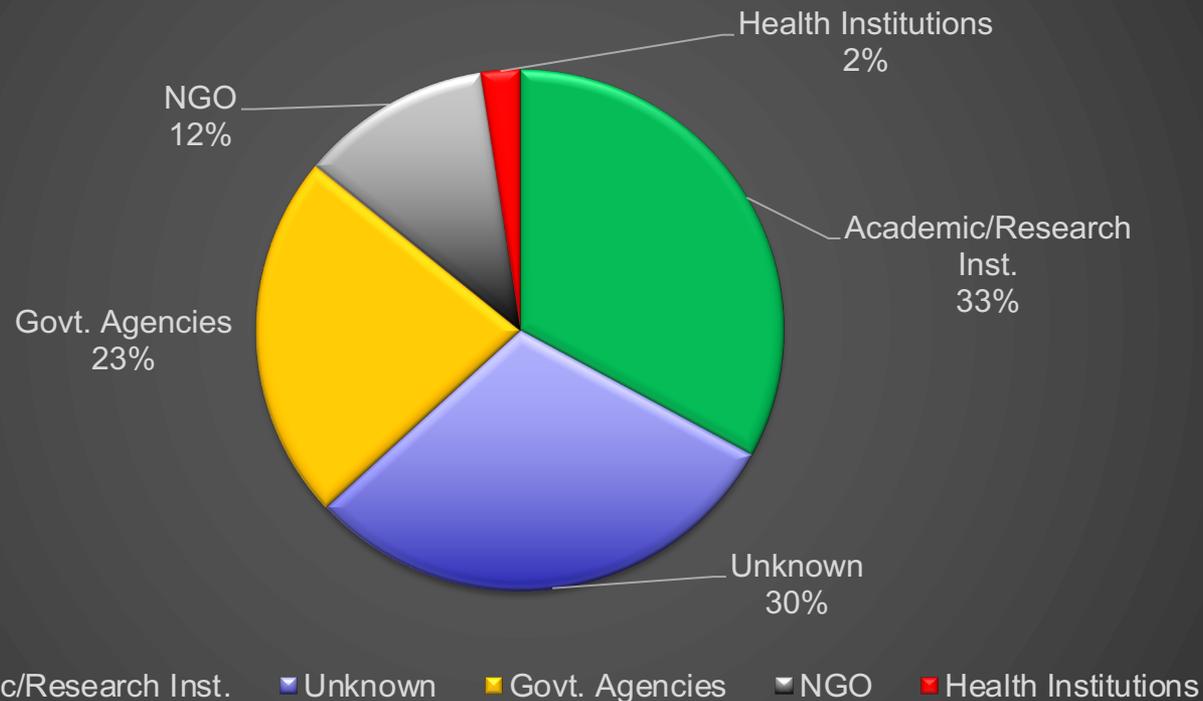

# OBSERVATIONS

- Certain key contacts (4) in the initial drive had multiple organizational affiliations (10) and were therefore counted just once
- There is participation by some individuals in the COVID-END initiative and working groups, who are not subscribed to the listserv community.
- A couple of these individuals are also key organizational contacts

# Total organizational representation on COVID-END listserv

n=255

## Comparing both stats
