

# Effectiveness of COVID-19 vaccines against infections from Omicron

versus being unvaccinated

## Fully vaccinated

Full vaccination is a full course of a COVID-19 vaccine.

Based on 9 studies among adults

## Fully vaccinated + 1 booster dose

A booster is one dose of a COVID-19 vaccine received any time after being fully vaccinated.

Based on 10 studies among adults

Vaccines included in this review: Pfizer (BNT162b2), Moderna (mRNA-1273), and AstraZeneca (ChAdOx1)

This infographic is based on a rapid review study that took place in August 2022 by a patient-partner research team working with the COVID-END and SPOR Evidence Alliance initiatives.
